BIO:

Hailing from ever eclectic Baltimore, Maryland, SUN CLUB infuses bright instrumentals, animal calls, and delirious stomping with dirty sunshine pop to get your body grooving. SUN CLUB formed in 2012 out of the ashes of an old band, with the purpose of making people go insane (in a great way). Pulling from influences like The Beach Boys and Animal Collective, SUN CLUB creates an array of energetic noises. After working with producer Steve Wright, their debut EP is out on Goodnight Records on January 21st (digital) and February 18th (physical).

SOME WORDS FROM THE BAND:

this EP is a huge collection of our entire childhood and stuff. like we've been making tons of music our whole lives and we were learning from everything we did and this ep is what really came out of everything. it's what we have been working to make for a while and it's finally something we're super super proud of. we didn't spend a ton of time recording, because we didn't want it to me over analyzed. and i guess that worked because it ended up to be exactly how we wanted it. we talked with steve, the producer, a ton before hand about what we wanted and he just knew exactly the vibe we wanted. so we tracked live and did everything in 4 or 5 days and it is perfect!

We're playing at the 930 Club in DC for the first time a couple of days after our cd comes out! So siked. That will kick off a 9 day tour that will hit DC, Boston, Brooklyn, Philly, Wilmington NC, Columbia SC, Nashville, and Blacksburg VA. And then in March we will embark on a 6 week tour around the country, playing SxSW. After Southby we'll be heading up the west coast for the first time, which is going to be amazing. Playing lots of cities for the first time, we couldn't be more excited for it. We're playing tons of really cool shows that we're all so pumped about, so excited to be alive these next few months!
